Education

Medi-Caps University

Bachelor of Technology

Aug. 2021 – May 2025

Indore, Madhya Pradesh

Relevant Coursework

- Data Structures
- OOPS
- Algorithms Analysis
- DBMS

Experience

Zipr Links Pvt Ltd

Product Owner/Developer

july 2024 – Present

Indore, Madhya Pradesh

- Developed Secure and Scalable Web Solutions: Created and deployed secure web applications using Cloudflare Workers, including a VPN detection and blocking system, enhancing website security by filtering VPN users and maintaining a verified user database with Cloudflare KV and D1.
- Built Customizable Ticketing Solutions for SaaS Platforms: Designed and implemented a versatile ticketing system compatible with IMIN devices and thermal printers, enabling dynamic content selection and reordering for various event formats. This solution streamlined printing operations and provided clients with flexibility in ticket customization.
- Managed E-Commerce Platform Development: Led the development and deployment of a fully functional e-commerce site for a souvenir store, utilizing the Wix platform to create a user-friendly, secure online shopping experience with integrated order management and checkout capabilities.
- Implemented KV Generation Page: Developed a KV generation page for the SaaS platform, allowing users to create and manage key-value pairs for dynamic data storage. This feature improved data retrieval and manipulation processes, enhancing user experience and operational efficiency.
- On-Field Experience in Project Management and Collaboration: Gained practical experience with project management tools like Jira for task tracking, Git for version control, and Agile methodologies in real-world scenarios, enhancing team collaboration and ensuring project alignment with client requirements.

Projects

E-Commerce Website | Wix

August 2024

- * Developed and deployed a fully functional e-commerce website for Gorewada Zoo, accessible at www.shop.wildgorewada.com.
- * Utilized Wix platform for streamlined development, customizing templates, and implementing responsive design to ensure compatibility across devices.
- * Integrated secure order placement and checkout processes, enhancing user experience and operational efficiency.
- * Incorporated backend functionalities to support order management, inventory tracking, and automated notifications.
- * Successfully launched the site, providing the client with an end-to-end solution for online sales and customer engagement.

Website Threat Protection System | Cloudflare, HTML, CSS, Javascript

september 2024

- * Developed Cloudflare Worker: Created a solution to detect and block VPN users, ensuring only genuine users can access the website.
- * Integrated Databases: Utilized Cloudflare KV and D1 databases for efficient storage and retrieval of verified user data.
- * Enhanced Security Measures: Maintained a verified user record to bolster security and protect against unauthorized access.
- * Utilized VPN Detection API: Leveraged a third-party API to identify and restrict VPN-based access attempts automatically.
- * Improved Site Security: Significantly enhanced site security and user authenticity, contributing to overall operational integrity.

Portfolio Management GUI | ReactJs

september 2023

- * Project Showcases: Displayed a selection of projects with detailed descriptions, technologies used, and links to live demos and source code, demonstrating technical proficiency and problem-solving abilities.
- * Performance Optimization: Ensured fast load times and smooth transitions between sections through code splitting and lazy loading, enhancing the overall user experience.
- * Version Control: Managed project development using Git for version control, facilitating collaboration and maintaining project history.

Technical Skills

Languages: Python, Java, C,C++ HTML/CSS, JavaScript, PostgreSQL, Product Owner

Developer Tools: VS Code, Android Studio

Technologies/Frameworks: Cloudflare, GitHub, JIRA, Wix
